Gentlemen:

In our Applicable or Relevant and Appropriate Requirements (ARARs) Working Group meetings in January you requested and DOE agreed to provide an issue paper regarding the general applicability of the Colorado groundwater site specific regulations as potential ARARs. The enclosed issue paper is provided for your review.

In January, DOE provided to you an issue paper on Point of Compliance (POC), which we discussed in our POC meeting on February 2, 1995. That meeting demonstrated that we had significant differences of opinion regarding POC. DOE requested, and EPA agreed to supply written comments on the issue paper. We have not yet received those comments.

If you have any questions on either of these subjects, please call me at 966-4839.

Sincerely,

Steven W. Slaten
